Details of the pre-application advice received

"The proposal to the front elevation would likely gain approval if planning permission were to be applied for so long as the design, material, colour and window detailing match the existing."

"The proposal to move away from the original fabric of the building to the rear and use uPVC equivalents would not gain approval."

"It is noted that the proposal for uPVC is for the rear elevation only however, a change in material to the Grade II listed building would not be considered acceptable and would not preserve or enhance the character of the heritage asset."

Chris Connelley, Specialist Advisor, Conservation and Conservation Lead for Eastbourne, advised that slim-line double glazing would be acceptable from a heritage perspective - phone call on 22/03/2023 between applicant and Chris Connelley.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
