

**FOUL SEWAGE AND UTILITIES ASSESSMENT FOR
81-83 TERMINUS ROAD, EASTBOURNE, BN21 3NJ**

Image of front elevation

Our proposal is to fit out an existing vacant retail unit on Terminus Road. We will be connecting into the existing utilities and sewage systems.

As our development is not a new development, and we will not be adding to the existing facilities, our proposed development will not impact on the surrounding sewage infrastructure.
