please could you add this as a formal objection to planning ref 230847 Site 1 Martinique Way, this shows from google earth (red outline for BN23 5TH) how much car parking has already taken up of the road. This is straight off google earth so you can check yourselves

the following picture shows that all the increased traffic will be crossing a cycle/pedestrian route where parents and kids cycle/walk to the beach.

Not sure what to say if a child gets hurt

Also I am not sure if you are aware but Martello 66 is a Navigation **Aid**: The tower plays a role in aiding small boats navigating near Sovereign Harbour. Its presence serves as a landmark for mariners, adding another layer of functional importance to its preservation ([theshotglassdiaries](#)) if it is hidden due to large buildings behind this could cause dangerous conditions for small boats

I would like to request that if you still want to go ahead with any type of building on this land that a suitable risk assessment is carried out for the surrounding area

Kind regards

Nigel Hutchinson
